

Cathy French

Senior Vice President Chief Information Officer

Cathy French assumed the role of Senior Vice President and Chief Information Officer (CIO) in March 2020 after serving as interim CIO since September 2019. She is responsible for TriHealth's strategic and day-to-day operations of Information Systems (IS), Analytics, Informatics, Cybersecurity, and Innovation for the organization.

Since starting her career as a staff nurse at TriHealth, Cathy has taken on, and excelled in, progressively more responsible leadership roles in Information Systems (IS), including Project Leader, Manager, Director and Senior Director, always serving as an advocate for patients, physicians, and team members. For the last five years, she has successfully led and managed all IS operations across the TriHealth enterprise while partnering with system leaders to develop and execute TriHealth's IS plan in support of our strategic and operational needs.

Cathy's exceptional leadership as interim CIO was demonstrated as part of TriHealth's planning and response to the COVID-19 pandemic. Under Cathy's leadership, TriHealth was quickly and seamlessly able to dramatically expand our network to support a rapid and dramatic increase of more than 2,000 team members who were suddenly working remotely from home. At the same time, the IS team initiated the build out of telehealth options – from the deployment of bedside iPads for "virtual rounding" to Epic-integrated video, phone and messaging platforms to support telehealth patient care – all to reduce the spread of COVID-19 while continuing to care for the entire community.

Cathy is a graduate of The Christ Hospital School of Nursing, holds a Bachelor of Science in Business from Indiana Wesleyan, and a Master of Science in Organizational Leadership from Mount St. Joseph University. Cathy is an active member of HIMMS (Healthcare Information Management Systems Society) and CHIME (College of Healthcare Information Management Executives).
