

Jamie Easterling

President & Chief Operating Officer
Bethesda North Hospital

Jamie Easterling has served as President and Chief Operating Officer of Bethesda North Hospital since March 2021 after serving in the same role for Good Samaritan Hospital since 2019. Prior to that appointment, he served as the Executive Director of Hospital Operations at Good Samaritan Hospital since April 2013.

He is responsible for the operations, management, strategic planning, quality, safety, and program development for the hospital. He is focused on ensuring TriHealth hospitals continue to provide the high-quality care patients have come to expect from Bethesda North Hospital.

Jamie received both his bachelor's and master's degrees from Morehead State University.

His new role is a homecoming, of sorts, as Jamie's first role at TriHealth was at Bethesda North Hospital as the manager of Radiology, where he soon transitioned into the System Administrator of Imaging for TriHealth. Specific areas of experience and demonstrated results included strategic planning, operational improvement projects, and technology driven enhancements for TriHealth Imaging.
