

# COVID-19 Assessment

## Access to Care

---

**Anyone who suspects that they may have symptoms of COVID-19 is eligible for evaluation and testing through TriHealth.** If you have a primary care physician, please call your physician's office first for a consultation. Once your physician evaluates your symptoms, they will make recommendations regarding further assessment at one of the TriHealth drive-through assessment centers. If you DO NOT have a physician, you can schedule a virtual visit through TriHealth NOW or you can visit one of the TriHealth Emergency Departments for evaluation.

Additionally, the facilities listed below accept Medicaid and Medicare and are currently accepting new patients. A referral from one of these locations provides access to drive-through testing.
