**FOR IMMEDIATE RELEASE**

**Greater Cincinnati COVID-19 Assessment Sites**  
*In times of rapidly changing information, it is important to follow the guidelines to protect our healthcare workforce*

Our region has a long track record of working collaboratively in matters effecting health and healthcare. The COVID-19 outbreak is no exception. Through The Health Collaborative’s Greater Cincinnati Disaster Preparedness Coalition, we are able to facilitate regional coordination and collaboration among all Coalition members in response to COVID-19.

To keep patients and residents in our region safe, please follow the below guidelines. This is imperative so we don’t overload our hospitals, and our most vulnerable patients can be treated first. Many individuals with mild symptoms will not need to be tested and will be instructed to stay home and self-quarantine.

**If you have symptoms and suspect you have been exposed:**

- **DO NOT go to the Emergency Department for a test.**
- **Contact your Primary Care Doctor.**
  - **If you do not have one, call the closest urgent care.**
- **If you qualify for testing - your Doctor will provide further instruction.**

**\*\*\*You will NOT be tested without a Doctor's referral\*\*\***

**Appointments are required for all sites for COVID-19 testing.**

| Hospital Name                      | Site Address   | Hours of Operation      | Days of Operation | Services Offered                          | Additional Information  |

| UC Health     | Clinic is located under two tents outside the front entrance of the West Professional Building at 3120 Burnet Avenue, Cincinnati, OH 45229 | 8a-8p              | All               | Screening, specimen collection and testing     | Testing will be available by appointment only for all members of the community, including UC Health employees. |

**For additional information, please contact your Primary Care Doctor or the closest urgent care center. Again, do not arrive to a site without a Doctor's referral for testing.**

**The most important thing for Greater Cincinnati residents to do is to continue prevention measures:**

- Follow social distancing procedures outlined by local and state governments.
- Clean your hands frequently with soap and water for at least 20 seconds.
- Cover coughs and sneezes with your elbow or upper arm.
- Stay home from work/ school/ activities if you are feeling ill.
- If you are a high-risk individual, [please review these extra precautions.](#)
