

December 2015

**NEW PLACE. NEW NAME. NEW NUMBER...
EVEN BETTER PERSONALIZED CARE.**

Dear Valued Patient:

These are exciting times for Madeira Family Practice. With a goal of providing you with the best primary care in Cincinnati, we are moving to a new physician-designed office, which will increase space and parking. From Jan. 22-24, 2016, we will not be seeing patients in our office while we move.

On Monday, Jan. 25, 2016, we will reopen on the first floor of TriHealth Kenwood, 8240 Northcreek Drive, off Galbraith Road.

We're renaming ourselves **Northcreek Family Practice** to reflect the merging of our practice with Blue Ash Family Physicians in this new space. Drs. Kevin Fiehrer and David DeMarco have been sharing after-hours call with us for several years. They embrace the same philosophy of providing exceptional, compassionate care to patients. We will be blending our day-to-day operations with them as one practice. All patients will continue to see their own doctors.

Our new phone number will be **513-792-4700**. If you dial 513-561-6266, it will be directed to the new line.

When we moved in 1998 from our tiny office on Miami Avenue in Madeira to our current site, it was hard to imagine that we would ever outgrow our space. Yet, that's exactly what has happened. Practicing in Madeira for these many years has been a wonderful experience, and we're pleased that our new office is less than two miles away.

We will be broadening the concept of wellness and tapping expert resources to help you make lifestyle changes to keep you healthy.

Within the same building, we'll be able to consult with cardiologists, cancer experts, women's health doctors and other specialists. You'll have access to lab services, X-rays, ultrasound, mammography, CT scans and DEXA scans.
