

Community Dementia Care Education

**Teepa L. Snow, MS, OTR/L, FAOTA,
Dementia Care and Education Specialist**

Snow is an occupational therapist currently working as a dementia care and education specialist. She provides educational and training sessions to organizations and providers throughout the U.S. and Canada. Additionally, she works closely with various dementia specialty service providers in both nations to develop, improve and optimize programs and services to people living with dementia, their care partners and family members.

Teepa is a Fellow of the American Occupational Therapy Association. She has developed multiple training videos, published many articles and presented all across the continent on a variety of topics and to a wide variety of audiences. For the past seven years, she has presented more than 350 programs each year. She has received many awards for her clinical and teaching skills from a wide variety of organizations.

March 2020 Opportunities

Managing Other Medical Conditions When the Person has Dementia

Monday, March 23, 1:30–4:30 p.m.
Bethesda North Hospital Conference Center

Tuesday, March 24, 1:30–4:30 p.m.
Good Samaritan Hospital Conference Center

- Compare & contrast five different approaches to managing medical conditions when a person is living with dementia.
- Discuss the changing expectations & issues that arise as dementia progresses related to managing other medical conditions.
- Match progression of dementia with level specific considerations in managing other medical conditions and treatment protocols.

Difference Between Supportive and Confrontational Communication

Monday, March 23, 6:30–8:30 p.m.
Bethesda North Hospital Conference Center

Tuesday, March 24, 6:30–8:30 p.m.
Cheviot United Methodist Church
3820 Westwood Northern Blvd., 45211

- Use validation and empathetic communication techniques when presented with someone in distress.
- Discriminate between redirection and distraction, and recognize the value of each in helping someone with dementia, after initiating the interaction with empathy.
- Describe the value of knowing the person and their history in effective communication efforts.

Making Visits Valuable and Positive

Friday, March 27, 9–11 a.m.
Twin Towers Community – Gulden Center
5343 Hamilton Avenue, 45224

- Recognize the value and importance of knowing who the person is and was, in order to communicate and have a good visit.
- Identify the abilities and limitations of the person they are visiting through observation and initial approach & interaction.
- Select which communication techniques to use based on retained abilities and observed losses in function.
- Demonstrate use of supportive communication techniques such as, empathy, 'go with the flow', use of props, and automatic social exchanges.
