

**Jane Boutte, SLP**

*Speech and Language Pathologist with the VP of Select Medical Neuro Transitional Rehabilitation*

Recognized as a tireless advocate and leader in the development, marketing and operations of post-hospital inpatient neuro rehabilitation programs and specialty long term brain injury programs. She is a Speech and Language Pathologist by training and has expertise in rehabilitation start-ups and turnarounds. Jane has held executive roles for two nationally recognized post-acute neuro-rehab providers. She was responsible for the development of and operation of the first post-acute Neuro Transitional Rehabilitation Center within the Baylor Scott & White Healthcare/Select Medical joint venture healthcare system. Currently she is partnering with the VP of Select Medical Neuro Transitional Rehabilitation to expand these services into other states outside of Texas.

Jane has dedicated her career to enhancing programs and advocating for access to available services to every person living with a brain injury and their caregivers. She led efforts to develop and was a primary author of the Texas brain injury insurance bill language legislation and was a key participant in rule implementation.

In addition to her professional accomplishments, she has held various volunteer leadership roles within the brain injury community, including 3 years as the past president of the Brain Injury Association of Texas, leading the BIAA – Texas Division’s Legislative Steering Committee and Advisory Board and former Secretary of BIAA State Affiliates.
