TriHealth Heart Institute

The TriHealth Heart Institute consistently beats the average national time to treatment in the event of an acute heart attack. We have the most experienced team of surgeons in the region, performing almost twice as many open-heart surgeries than any other regional health system.

As Cincinnati’s leading heart and vascular program, we focus on providing the least invasive option for each patient for optimal outcomes with the quickest recovery time. Our highly regarded cardiologists and surgeons perform Cincinnati’s widest range of cardiac procedures at multiple locations across the Tri-State.
